

Ric Millen Cup

Annual tournament participation includes a **points process** whereby points are awarded for tournament play during each calendar year. Points earned help players compete for dollar prizes at the season ending Ric Millen Cup tournament.

Players will accumulate points throughout the year from their participation and their contributions (\$1.00 in each event they play.) Points will be converted to a Handicap Plus Up Process used to reduce player net scores. After accumulating **40 points** or more, each 10 Points will reduce net scores by 1 stroke.

Participating Players will be awarded five points for playing an event and additional points as follows:

- (1) Five (5) points for winning an event, regardless of whether it's team (each get 5 points) or individual
- (2) Three (3) points for Second Place
- (3) Two (2) points for Third Place
- (4) Fifteen (15) bonus points for participating in the Club Championship

The Ric Millen Cup tournament will be comprised of three flights, evenly divided by **low indexes** and everyone competing in both Gross and Net Scores categories. Each flight will pay out to the top Gross and top six Net Scores. Players can win only one category.

A Table of Men's Club Player Accumulated Points throughout the year will be maintained by the Tournament Director and posted to the Ric Millen Cup page on our Club website, mmgclub.com.
